System Requirements For Anpro Screen Capture Tool:

The graphics engine has a hardware accelerated renderer that can render 4K textures on all-textured objects. As a result, the performance is not that different between computers with AMD's 7000 series of GPUs and computers with Intel's 4000 series. Intel's GPUs run on lower clocks than the 7000 series of AMD GPUs. There is no performance advantage of using the Intel GPUs on the GTX 970 (it is an all-textured card after all) on this title. The GTX 970 comes with a 120W power brick. Most of the AMD Radeon HD 7850/77
