There are many themes out there, if you are looking for ways to customize the appearance of your computer, and the only way to find the one that best suits your preferences is to test multiple ones then choose the one you liked best. For example, you might appreciate the wallpapers included within Light and Dark 2 Theme. While it can be considered as a continuation of the vision presented within Light and Dark Theme, the current one can also be installed by those who are not familiar with the first one, as the wallpapers are equally amazing and almost dramatic. The theme can be installed on all computers running Windows 7, 8 or 8.1, and it is compatible with both x86 and x64 platforms, so you can run it without any worries that it might not be displayed correctly on your OS. While the desktop wallpaper will be automatically replaced with one of the 19 included images, you can also adjust the rotation frequency as you see fit; it can range between a few seconds to a few hours, thus giving you the possibility to explore all the pics with no effort. Furthermore, you can change the display mode to stretch, center, tile, fill or fit, according to your liking - you can test them all so as to make sure you choose the most appropriate one. The contrasting images included within Light and Dark 2 Theme are creations of Nick Boyer and they capture a variety of scenes, ranging between sunsets, closeups of flowers, cars, wildlife or forests. All in all, Light and Dark 2 Theme can help you beautify your desktop, while also adding it an artistic touch via the wallpapers it comes with.
