Am I able to flash a custom recovery onto a LG G Stylo H63410g?Q: using multiple setcharcodes on one div I have a web application in which on a list of projects the user sees a unique ID, the created date and the timestamp. I am displaying these items on a page through JQuery. Currently the ID and created date work fine, however the timestamp is not displaying at all

Whats up all. I am back. Thank you all for the help and positive feedback. I had a really bad experience with rooting because I know nothing about anything but how to pick up girls. I tried both methods and root. I even tried an advanced version because I thought I could finally get my release out of the OEM. No Luck. I gave up on root after loosing two days of my life to google and trying different methods. The phone is back to stock firmware and so are you all. No more rooting for me.I'm just gonna stick to buying warranty replace, F/W updates, and then wiping the phone. . Cricket LG G Stylo H634 Status is Firmware Version LBSM 3.0.0 Android 5.0.1.
