What is it about? Solen Test Maker is a small test creator that you can use to design a test (multiple choice and true / false) and take the test to see your score. It sports a clean and intuitive graphical interface with many nice tools at hand. Sleek and lightweight graphical interface The application doesn't take long to install and it doesn't come with a complicated setup that you would need to complete before you can actually use it. It sports a clean and intuitive graphical interface with many nice tools at hand. Solen Test Maker is a small test creator that you can use to design a test (multiple choice and true / false) and take the test to see your score. Create tests easily The first thing that you need to do after launching the application is to write your question and type in the possible answers. You can choose from

---

two modes, multiple choice or true/false. There's the option to add as many questions as you like to your test. At any time, you can edit questions that you've included inside your tests. You can also remove questions or save the test easily on your computer. More features and tools It comes with the option to try out the test after you've completed it, so you could tell if you need to make some changes to it. Still, it would have been nice if you could add a timer, so respondents would need to answer to questions in a certain amount of time. It also lacks the option to add pictures attached to your questions. All in all, Solen Test Maker is a small test creator that you can use to design a test (multiple choice and true / false) and take the test to see your score. Install Solen Test Maker on Android Our group of test makers have been hard at work writing the tests for our users. We've added a brand new test maker called Solen Test Maker. This tool is a very simple and

---

clean test maker that you can use to design a test (multiple choice and true / false) and take the test to see your score. Sleek and lightweight graphical interface The application doesn't take long to install and it doesn't come with a complicated setup that you would need to complete before you can actually use it. It sports a clean and intuitive graphical interface with many nice tools at hand. Solen Test Maker is a small test creator that you can use to design a test (multiple choice and true / false) and take the test

## System Requirements:

As the title says, the game requires at least 8 GB free disk space on the hard drive. However, the game comes with built-in the best graphics driver to help players enjoy the beautiful graphics. With the graphics driver installation, some gamers have reported that the game may crash or freeze on certain system configurations or hardware. If you are playing the game on such system, you may want to check if you have the latest version of graphics driver installed on your computer. You are also suggested to try the new audio driver such as Creative X-Fi MB3 and MB5.
