What's New in the USB Icon?

Plug and playIcon package for any USB drive (compressed icons) Features: - easy installation, no need to burn a CD or

to run installation programs. - Compressed icons can be used in USB drives and desktop shortcuts (not for removable devices). - With compressed icons, you can put any file you like on the USB drive. - No unzipping, no extracting, no installing. - No additional steps needed to create and use the icon package. Just unzip, put the icons on the USB drive or desktop shortcut, and start using them. - Use the standard Windows icon font with your application icons. - Sizes of the icons: 16x16, 32x32, 48x48 and 64x64. - You can use them for USB drives, desktops shortcuts or any other location on your computer. - You can add as many icons as you want. XEODrive-Installer.msi, XEODrive-Setup.exe, XEODrive.dll, XEODrive.xml - Free edition - Basic features and doesn't require registration - No installation wizard - Doesn't require administrator's permission - Supports any folder

Known issues: - Universal installer does not support 64-bit. - Incompatible with 32-bit applications. - Issues with graphics modes. To use the icon set, you will need to extract it into the /icons// folder. You can move and replace the icons with your own. You can use any free software to add the icon pack to your USB. We recommend Icon-Packager, but you can use any software that creates an icon package. =====

===== UPDATE:Due to the positive

feedback, I have decided to upload the source for the icon pack. The new version is named "". You can get the source from GitHub: You can use the new version of the icon pack without any issues. You can use the "Download" button in the right column to get the newest version. You can also find the source at the following locations: - GitHub - - SourceForge - - SourceForge BitBucket - - Reddit -
