Tektronix Tektronix, Inc. is an American electronics company based in Research Triangle Park, North Carolina. Founded in 1968 by Paul Haney as an independent consulting and semiconductor sales organization, Tektronix was acquired by Hewlett-Packard in 1986. The current CEO is David Ross. History Tektronix, Inc. was founded in 1968 by Paul Haney as an independent consulting and semiconductor sales organization. The company began with a staff of seven people in a rented office suite at the UNC-Charlotte campus, the first product was a 100 point oscilloscope. The initial customers were engineers, technicians, and hobbyists with a specific interest in electronics who had a need for a better oscilloscope than the oscilloscopes that were available at the time. Their first offices were a rundown facility at the old Radio Shack. In 1968, Tektronix launched their first product, the 100 Point Oscilloscope. The first customers were engineers, technicians, and hobbyists with a specific interest in electronics who had a need for a better oscilloscope than the oscilloscopes that were available at the time. In 1969, Tektronix relocated to the Research Triangle Park, NC area and purchased a 2,000 square foot building on Springdale Rd. The name was changed to Tektronix, Inc. In 1971, Tektronix moved into a 3,000 square foot facility on Springdale Rd. In 1972, Tektronix changed the name of the company from Tektronix, Inc. to Tektronix, Inc. of Research Triangle Park, NC. In 1973, Tektronix introduced their first microprocessor, the first computerized A/D converter, and the first modern digital multimeter. Tektronix also introduced their first monolithic integrated circuit. The Tektronix 360's, the first commercially available 16-channel oscilloscope, were introduced in 1973. In 1975, Tektron
