We report our experience in the diagnosis and management of cutaneous tuberculosis (CTB) in pregnancy. CTB was diagnosed in 21 pregnant women, including 10 primigravidae and 11 multigravidae. All patients had their pregnancies confirmed with ultrasonography and had a normal outcome. Cutaneous manifestations began at 11-17 weeks' gestation and were seen in 15 women during the first trimester, and in six women during the second trimester. Only six cases were diagnosed during the third trimester. Fourteen patients were treated with a 2-month regimen of isoniazid, rifampin, and pyrazinamide, while seven patients required additional treatment with ethambutol and streptomycin. Two of these seven patients had evidence of concomitant active pulmonary tuberculosis (TB) and one of them was misdiagnosed as having an exacerbation of rheumatoid arthritis. The mean gestation was 23 weeks (range, 16-34) and the mean delivery was 37 weeks (range, 33- ca3bfb1094

The German-style pilsner is no different from the vast number of other beers that are made in this style. But in fact, Peak Pils is a special beer: it's the first American lager to be brewed in America with only all-American ingredients. Peak Pils started life in 1995, when George Benson, a homebrewer, conceived of the idea of a pilsner brewed solely from American ingredients. The craft beer renaissance has transformed beer, with beers from the New World, the Old World, and other styles proudly proclaiming their independence from the Old World's malt-based recipes. And Peak Pils is no exception. When it comes to the craft beer revolution, beer may be one of the oldest styles, but its American roots are still very much intact. Two key factors have made American-made beers successful: the wave of craft beer imports from Europe and the revival of American brewing. Both have had a tremendous impact on the beer industry. There was a time when European-made beers dominated the market, but over the past few decades the wave of imports began to take hold. In America, in particular, craft brewers began the Americanization of beer by importing many styles from overseas, including craft lagers and traditional European styles like bocks, dunks, and porters. Peak Pils was one of the first American
