A fantasy action RPG developed by GarageGames in collaboration with Online Date, the original creators of Triple Triad and Secret Files. The new fantasy action RPG, due out in May 2015, is a breath of fresh air, and more than anything it combines three elements that are very popular today: Action, Fantasy and Adventure. The game is being created to be both a fun solo game as well as a multiplayer game. That being said, unlike other online action RPGs, it focuses on a game that allows players to choose their own adventure. The main features include: -Creating a character with different swords, shields, armors, magical/combat skills, etc. -Vast and large scale world, where you can freely navigate -An epic story, with three chapters per single player -Multiple player battles in fully-voiced three-dimensional environments -A high level of detail (ability to freely rotate and zoom camera) -Unique combat system, where two characters can battle in real-time -Unlimited character development -Six-piece party formation mechanic -An online component allowing players to interact with each other and visit each other's worlds. A limited number of Early Bird units will be available in the Indiegogo campaign. Email This email is not valid. HTML has been banned.
