Softasm.com A free online video converter that can convert nearly all of your videos to any other format you want. The Royals are set to activate outfielder Dexter Fowler and infielder Mike Moustakas from the disabled list, according to a club announcement. Fowler will rejoin the club on Saturday in Detroit while Moustakas will be activated and start his second game of the season on Tuesday.

Fowler is eligible to appear in Sunday's series finale against the Tigers, while the latter will be eligible when the Royals return home on Thursday to face the Mariners. The right-handed hitting Fowler is 2 for 4 over his last two games, raising his batting average to .312 after he went 1 for 5 with a walk and a run in the Royals' 8-7 win over the Tigers on Wednesday. Fowler missed the first 10 games of the season after undergoing back surgery. Moustakas, whose husband Patrick enjoyed a lengthy career in the Minors, has been sidelined since suffering a right index finger contusion April 24, a day before his son's second birthday. The third baseman has appeared in 31 games and accumulated a batting average of .290 with five home runs and 13 RBIs. He played four different positions in 2013, including 19 games at first base. Spontaneous closure of a large artery-to-artery fistula after valve-sparing aortic root replacement. A 62-year-old woman underwent aortic valve-sparing root replacement for aortic regurgitation with double aortic valve insufficiency. A large aortofemoral arterial fistula was identified 6 months after the surgery, with associated renovascular hypertension. Spontaneous closure of the fistula was observed after 12 months' follow-up. Spectrum of pathology in Alagille syndrome: a retrospective study of 26 cases. Alagille syndrome is a rare autosomal dominant disorder, associated with multiple manifestations. Cholelithiasis and cardiac abnormalities are the most common major features of Alagille syndrome. Liver disease is common, and liver histology is variable. In this study, we have reviewed retrospectively the liver histology of patients with Alagille syndrome seen over
