MAGNAT CLASSIC 360 THEÄ .Clinical trials for proton beam therapy in Australia. Currently 19 proton therapy systems (PTS) are operational in Australia. There are three gantry proton therapy (PT) centres. All three are located in the northern half of the country, and have been in operation for more than 10 years. At the current time there are three multi-disciplinary teams (MDT) able to conduct research trials. These are located at the three proton therapy centres, and conduct research for a wide range of indications. There are currently three research trials open. A new rural PTS has been established and is currently in the pre-clinical phase of development.14-year-old boy dead after being hit by a car while crossing the road A 14-year-old boy has died following an accident involving a car in Surrey. The boy, from Epsom, was crossing New Colne Road, in Churt, at approximately 7.45pm on Monday when he was hit by a silver car. He was taken to a local hospital where he died from his injuries. Insp Gregg Stone said: "I would like to appeal to anyone who may have witnessed this incident, or has any information that would help us locate the driver or the car that was involved, to contact us. I need help with building the Magnat Classic 360 from scratch. Hello everyone, First post here, just got my Magnat Classic 360 for xmas, and I don't have a clue on how to build it. I have been Googling around, and some of what I have found is showing me parts that I need, but how do you make them. If you could help me out, that would be greatly appreciated. Here are the parts I will need: it's a 4 ohm poweramp with a 13 volt supply
