Who Said That? Why? And like pokemon, there are dragons, alright? And they are handsome. And a few of them are blue. They have wings (Even tho they are actually wingless) And one of them is blue (With wings) and there are four of them! The one with blue wings is called the Avatar. A dragon with blue wings that's cute. What a great name. Maybe its kinda elfish. Look how its smiling! In the pokemon anime, they would always smile when they met new people (And also when they were fighting a battle) maybe that's a dragon thing too? like, "Smile! You might win!" See? Its smiling, but it sounds a little.. cold. I don't see a warm feeling behind that mouth. Elden Ring Cracked 2022 Latest Version Is Your Dear Friend! With the help of an old friend. it can help you get through the journey. The one over there sits there almost randomly. It just stares into space. If it wanted to, it could shake its head. But it doesn't. Its lazy. Maybe its sleeping. There's a white bear. I think it's a little shy. But I don't think I can say that. What does "shy" mean? How do you know if its shy? Or even fearful? Or sleeping? If you were watching a baby, you might think sleeping. But would you know how to tell if it was afraid? Or even happy? What if you're watching a baby and it's smiling like that? Would you be able to tell if it was happy? Maybe playing with someone? I think you would be able to tell if it was screaming. The blue dragon is talking to the white bear. You can't understand what they're saying. But its interesting. They're talking. They might actually be discussing us. Or a game. Or if this exists. bff6bb2d33
