I was hesitant to tackle the world's oldest macaroni and cheese recipe. Was it too good to be true? And was it worth the hassle? I took the plunge and recreated my mother's recipe in a slow cooker. This recipe results in a creamy, cheesy goodness that any mac and cheese hound will love! When it comes to making mac and cheese there's no shortage of time and advice, there's a lot of debate on which way to go, I'd like to say I came out on top in both. A few months ago, I was honored to win a recipe from The Perfect Pantry as a Shopper of the Month. After picking up her mac and cheese recipe, I happened to be in the mood for my favorite food. It's macaroni and cheese, people. And we needed to make this bowl of cheesy goody soon! For the month that I worked on my recipe and tested it, I shared my results on Instagram under the handle @amechecookbook. I decided to share my finished recipe, for a few reasons. I am the kind of girl who hates to give recipes away, I want to make sure that everyone knows that this is the best macaroni and cheese recipe on the planet. Sharing my process helped me create the recipe and share the time and effort I put into it. Sharing this recipe helped me cook a bit healthier! Macaroni and cheese can be a disaster for your waistline and feel free to share a healthier version of this classic comfort food. I choose to make mine healthier, but not by sacrificing taste. Batch Macaroni and Cheese (The Best Kind) Recipe This is a recipe that has been handed down in my family for generations and generations. It's a really fun family recipe to share and perfect for making ahead. I am thankful to have such great mamas in my life. My mother made and perfected this recipe, and her patience in creating this recipe is an absolute blessing. This recipe
