Created by Kael van Orphan | Art by thePixelKing "Not to be confused with the survival horror game from the 80s that featured little sleep and grueling enemy encounters, Awoken instead is the story of someone waking up in a hellscape and having to find a way out." - IndieStatik Additional Info: The screenshots were taken from inside the game. They show not only the environments, but also the camera angle and a mental state of Alan. Unfortunately, I have not been able to play the game myself yet, but I hope this still is good enough to give a good overview. A: This article, written by Alan himself, may help with some of the other questions in the comments: "But, what is it?" I suppose one could consider this a spoiler, but I think that the question "What is it?" is something that (if asked frequently enough) would eventually lead to discovery of the game, since most people who play such games end up asking this question. As other people have said, the key to understanding the problem is in the eponymous word, "awoken". I'm not sure if it's worth debating the merits of the game, as it's not up to me to judge the quality of the game. But the word that can be considered the "problem word" is the word, "awoken". In the passage you quoted, Alan had woken up to the presence of a number of alien creatures. What he did not realize was that these creatures were not merely alien beings, but part of a creature that was incubating inside his own mind. If this sounds like something that might interest you, you can find out a little more about the content in the following interview (posted on the games own website). Mila Kunis offered a surprise answer when asked if she would turn down future acting jobs if a film with offensive content was chosen for her to star in. Kunis spoke on stage at the Asian Film Festival in Boston on Saturday (September 30), where she was asked about her inclusion in the new movie "Black Bear". "I was much more careful to avoid this question," the "Black Swan" actress said, when asked if she had any qualms about starring in the film and if she would turn down any future projects that offended her morals. **of a Charing Knight, Being a Story of the Hanging Game, by Nellie Gonne. Translated by Anna Cecilia Olum (Men's Press, 2019) The Happy Hanging Game seems silly and melodramatic nowadays, but people still play it every November, to the sadness of parents and fun for children. The problem, this time, is that the owner of the Hanging Tree wants things to be different; he's come back from vacation to take matters into his own hands. This is No Christmas for the Hanging Game, the story of what happens when a man comes home to find his long-held tradition has been upended. Naked and covered in oil, Grundo went into the Hanging Tree, up the stairs, and into his cousin Danny's bed. "I'm hungry," he said. "I'm craving fried food and chicken. Is that why you're cooking?" Danny sighed. "Perhaps I am." He got out of bed, put on some pants and a shirt, then he went into the kitchen. After setting the table, he went back into the bedroom and stood in the doorway to the kitchen. "I don't know why the Warden didn't inform me of any of this," he said. "Or warn me. He won't take much stock of most things, but when it comes to the Hanging Game, he pays attention. I always assumed that he'd been made aware." "Will you eat with us?" asked Grundo. Danny shook his head. "I can't eat. They've been feeding me for days. I just want to be left alone." "Well, don't worry about food," said Grundo. "I have all the money I need." "No, I mean, I can't eat all my favorite foods, like that chocolate cake you make at Christmas, or the lemon pies you bake in the summer. I have no clean clothes. No robe." He glanced out the window; it was raining. "I can't even get excited about the Harp, anymore." "The Harp?↵**
