Dungeon Fighter Online® (hereinafter "DFOnline" or "the Game") is a free-to-play action RPG that casts you as a party of heroes charged with saving the world from a legion of monsters, all while enjoying a multitude of game types and missions. Classic RPG elements such as levelling up, crafting, and earning experience are woven into a free-to-play online gaming experience. DFO is different from all other free-to-play online games that you've played before because it was designed from the ground up to be different. We strongly believe that quality always trumps quantity. Quality is at the heart of everything we do. Rather than releasing a game that offers a small number of flashy features only, we decided to create a game that truly offers our players a unique, exciting game experience. This is the first step of our journey towards delivering more content and adding new features to the game in the future. You are capable of a great number of things in Dungeon Fighter Online. By focusing on the elements that really make the game fun and the elements that are true to the classic RPG genre, we have been able to create an RPG gameplay experience that is unlike anything else out there. Each hero in your party has their own unique abilities, from three distinct skills that can be used to enhance the basic skills and your abilities with weapons. There is no limit to the amount of skills you can equip to each hero, and even though there are a great number of different class types and skill trees, you are free to freely choose your paths. Not only that, but DFO also features powerful subweapon skills that you can equip to each hero. A non-linear quest structure gives players the freedom to choose their own paths in their quest to become the strongest hero in all of China. DFO includes two game modes; the Main Storyline and Dungeon Dungeon. The Main Storyline quests take place in the main campaign mission where you search for your sister in the palace of the evil tyrannical Emperor. This is the main story arc of the game that will take about 2 hours to complete. You will be able to experience some of the popular tropes that the classic RPG genre is known for in the Main Storyline. This is also your opportunity to meet some of the iconic characters from the various Dynasty Warriors® games. As the Main Storyline progresses, the player will encounter the Emperor and his group of demon warriors who threaten the country of China. You must help your sister escape from the palace. This is the Main

Freak (1) About the Author: I made a very shaky start to this new professional goal of being a writer. I graduated from a Local University in Oklahoma with a Bachelor's degree in Visual Communication. My dream was to work in Advertising. During college, I worked at a fitness center to save money for college. I worked it for more than 5 years, and still work there today, 2+ years later. I gradually began to write down and record experiences and things I learned. My passion for fitness will always be there; but the writing I wrote was just one of many that told of life's great joys and untold stories. The fitness center where I started to work is still in existence. I'm still proud and delighted to be there. I still love the work I do. My gym is named 'Jubilee Fitness' in honor of its founder, Dr. Jerry Johnson. Years pass and I've learned so much from my College instructors and associates. They began to see something in me that was stronger than my poor notes. I'm still writing and learning, but in a lot different way. I will be reading from 'Santa's Slippery Slope' to my wedding day, December 7, 2012. I hope that the fitness world will continue to read and enjoy the thoughts that I put into these pages. I hope they will realize that
