----- Who are you? ??? - The Forgotten People. Where are you from? We are the Forgotten People and we come from this area. Why do you look like an adult earth dragon? We were cursed with a rare type of dragon, an adult earth dragon. This dragon has a very special, unique and dangerous gift. We did not know how this would affect us, and did not want to have a dragon as a children. Therefore, the dragon was taken away from us by a wizard and abandoned. The dragon was trained in combat and over time it became an adult earth dragon. When it was too big for its cage, we finally managed to free the dragon. When we were on our way to the mountains, the dragon understood that this was our home and chose to stay with us. We were very angry and tried to run away but the dragon was very fast and we could not catch him. After we decided to free the dragon, the dragon started to wander around the mountains, but it was in deep slumber and did not get into any trouble. The dragon did not stay in one place for too long, and when we wanted to stop him he would flee into the mountains. After we found the dragon, we decided to bring him back to the village and this was when we realized that he has a very special gift. When we asked the dragon about this gift, he chose not to tell us. We tried to take away his gift, but even one bite would kill the dragon. We could not save the dragon and we decided to put him into a grave. After that we started to travel, but the dragon kept following us. One day, the dragon caught up with us and did not want to let us go. We fought the dragon, he bit us and drank the dragon blood. And then he said. You are one of us and he must be put back into the dragon's grave. This curse was so great that the dragon could not stop. He was able to change into an adult earth dragon. The dragon is a very strong and wise dragon, but the cursed one is stronger and more powerful. We have learned how to fight him, and we fight him on a regular basis. He never sleeps so we must be careful when we are around him.

### **What's new:**

**I hope all your Halloween parties were awesome, and you all survived your Trick or Treating and, if you are the pros among us, avoided wrapping yourself in plastic, getting bellied up by that jack o the pump, and maybe had a neon deer shoot out of your mouth. It's time to get back into the**

**swing of things. It's time to get back into the fun-filled, exciting, life-gripping Business-as-Usual (BOA). This week we are going to cover the Creature Clicker (CK) Halloween Costume. And right after the costume tutorial we are going to have a few TinyBoss news. Remember, you can follow the news on our official FB page! Here is the Costume description from the Website: Are you ready to like your Facebook? Get into the (hopefully) spook-tacular Halloween spirit with the most epic creature-clicking game on Facebook. Add Birthday Coins to your game and unlock new costumes for your creepie pals. Complete all 13 Trick or Treating quests and obtain your Halloween pumpkin, which will enter your game on the big day! Swipe and click your way to a spooky Halloween achievement. And before you go any further, let me explain, social networks such as Facebook and Twitter, up until recently, weren't available to developers of paid apps. Not to worry! TinyBounce is here to help! Our brilliant engineers just made all Social Network profile and game account statistics available to you from a Tweet or a Facebook post, a matter of seconds, to take advantage of. How does the game work exactly? If you are a little lost, don't worry, you don't have to play it! Just familiarize yourself with the important elements and the brain-cells will win the game for you. Leave the game running in the background and listen to it rain happy-accidents! You can add Birthday Coins into the game to receive special bonuses and a richer, possibly better-looking community. Watch the Birthday stats climb as the coins and commerce flow, and enjoy the fun! If you then have an Earth Halloween Costume on your Earth calendar, you will receive an ore, and this ore is the one you need to purchase a Moon (or more) event. At present, the Moon can be seen blinking from the hour hand of your earthtetric compasses. Only you can add the specific number**
