I've been trying to split our current pool into 12 VMSSs but when I click on the pool in the portal it only shows one size. I've even tried creating a new VMSS in the same location and choosing to split the size from the original pool but still nothing. I found a similar

topic but still nothing : Why do I only see one VSAN size in the portal? A: It looks like you could try to resize the pools manually. From the UI or through any of the powershell methods:
