Reaching for the stars: the thalidomide revolution in anti-angiogenesis. The actions of thalidomide are not only well known in its anti-tumour effects, but they can also be applied to induce pre-metastatic dormancy in cancer cells. How the drug induces this dormancy is not fully understood but inhibition of angiogenesis is implicated. The importance of angiogenesis in cancer has been well illustrated in recent years, including the poor prognosis of patients with human epidermal growth factor receptor-2-negative metastatic breast cancer when anti-angiogenic agents are added to standard treatment. Thalidomide can be used at low concentrations, with fewer side effects than most other anti-angiogenic drugs. In the future it could be applied in combination with existing anti-angiogenic agents to improve the outcome for cancer patients. York Athletic Club The York Athletic Club (YAC) is a private social club located at 1 East 65th Street between Park and Madison Avenues, in the York Avenue section of the Upper East Side of Manhattan, New York City. History The club was founded in 1892 by several friends, including Samuel G. Adams, Henry Lee Higginson, Harry Payne Whitney, Henry Osgood Tiffany and William A. Whitney. These original members were called the "First Eleven" and they made their home on 11th Avenue near 44th Street, near what is now York Avenue Presbyterian Church, and where, from 1892 to 1896, the Athletic Club operated a series of indoor tennis courts. The original clubhouse was designed by architect Stanford White, and it was converted into the neighborhood's first public library. The main building was constructed in 1900 and designed in the style of a large English country manor. The club's tennis courts were initially located in the aforementioned clubhouse 6d1f23a050
