Chhota Bheem - Himalayan Adventure.Synthetic Aperture Radar (SAR) image-processing techniques, such as Moving Target Indicator (MTI) image processing, are currently employed for enhancing the resolution of Synthetic Aperture Radar (SAR) images. However, the accuracy of the image-processing technique depends on the accuracy of the input data, i.e., the raw data, and the target position. The position information of the target is generally acquired manually from the interpreter of the raw data. To assist the interpretation, SAR data is commonly preprocessed to remove speck 6d1f23a050
