What happened to Freenet? - dpritchett was reading the Wikipedia article and it said that Freenet is shutting down and the assets are being sold. This sounds like something that should be sending the message to the anonymous crowd. From a tech geek's perspective I'd like to know more about the project. Has it achieved its goals? ===== resdirector I'd be shocked if they hadn't already sold the project to someone. As more than one poster pointed out, the real value is in the people, not the

---

product. I don't think Freenet has achieved its goals. The biggest effect that I've seen is that it's replaced bit-torrent with a lot less anonymity. There are plenty of other projects with similar functionality, like Storm (), which I've heard is more efficient. Q: TeamCity detects DB 6d1f23a050
