It is entitled 'Unto the Locust' (2011) and it .Q: How do I replace a part of a string using a regular expression, while ignoring case? I have a string that looks like this: JOHN SMITH How do I replace the email address, while ignoring case in the string? This is what I've tried so far, but it doesn't work: re.sub("", "", "JOHN SMITH ", case=False) A: Instead of the.* you need a non-greedy match. This means that it only tries to match as few characters as possible. You also want to be a bit
